Dr. Maggiore;
Thank you for handling my order for prescription ski goggles so quickly and in time for my ski trip. The prescription goggles were excellent and made skiing very enjoyable even in low visibility and night-skiing conditions.

Received the goggles yesterday -- they are great. I have a happy husband and 8-year old who can't wait to try them out. Thanks for the prompt service!

Dear Dr Maggiore,

I ordered prescription ski goggles from you, and I wanted to let you know how thrilled I am with them. I also appreciate the great service. The goggles are comfortable to wear, and the lenses are great. The goggles are better than what I had expected, and I am excited to have this product.

They have, and will continue to, make my snowboarding so much more enjoyable! I could see fine in front of me, but things in the distance were blurry. I snowboarded without glasses because they were a hassle to use when snowboarding, especially when they fogged up. I tried contacts just for when I snowboarded, but they were also bothersome to be dealing with.

I have been getting so much more pleasure snowboarding with your goggles, and again, I am thrilled with your great product and service. I will be ordering from you in the future ans the need arises, and I will be telling others about your fine product and service.

Sincerely,
Andrea Mantione

Dr. Maggiore, for years I have skied without my glasses because of the constant fogging and hassle. I could see in front of me, but distant images were a blur. My sweet wife and mother in law gave me a pair of your prescription goggles for Christmas, and skiing this year in Colorado was a totally new and joyous experience. The goggles performed beautifully. Thank you for your work in this field and for the joy that you have brought to skiing. Sincerely, Bill Harvey
